

Price Schedule

Prices effective 1 November 2025 · current to 30 September 2026. A new price schedule effective 1 October 2026 has been notified to clients and takes effect on that date — ask us for a copy at any time.

Standard weekday prices are shown. Evening, weekend and public-holiday loadings are set out on page 2. Final charges depend on the services approved in your Care Plan and the actual booking time. Individual fees are confirmed in writing before services begin.

Third-party purchases — from 1 October 2026

From 1 October 2026, applicable purchased third-party items — taxi and rideshare fares, meal delivery, continence and clinical consumables, and equipment (fee capped at \$500 per order) — include a 10% handling fee calculated on the supplier's invoice cost, as notified to clients. The food component of meals is always your own cost.

Our Ashburton residence

The minimum total fee at our Aged & Disability Residential Care residence is **\$225 per day**, including \$75 per day for accommodation and meals. We do not offer accommodation and meals alone. No lump-sum accommodation bond. All admissions are subject to assessment, funding confirmation, suitability and availability — ask us for a written quote.

Prices include administration — no separate administration or provider-travel fee is added on top of published service prices. Under Support at Home, care management is funded by the 10% the government reserves from every quarterly budget — it is not charged on top of the services above. Minimum bookings and cancellation terms are set out in your service agreement. Client contributions, where applicable, are determined separately. Schedule reviewed annually and when Government pricing requirements change.
